<b>Comments</b>	<p>Your team canvas shows a good initial team alignment. You have started really well on the challenge delivering well-thought and researched outputs. The page is well structured and you have included good quality references. I would link from the Challenge and Problem Research page to the Conducted Interviews page since the interviews are relevant research information. You have transcribed the interviews. I am missing a compilation of the information that you are drawing from the interviews.</p> <p>All team members have access to the GitHub Repository, and you are using GitHub issues very well. Great job and keep up the good work!</p>

<b>Comments</b>	Great job describing your Storyboard development process and feedback collection. In your final storyboard, I am not quite sure if I fully understand the scope of the Champs2Be app. I see that you can start a sports journey. How does the club finder in den neighborhood work. Is that just linking to Facebook? Is there a follow up on the journey, once the user joins a club? Is there a tracking of activities or similar? It would help me if the final frame would make the benefits of the app clearer. Furthermore, I am not seeing a direct link to the challenge, yet.
